

***Allowable Subject Matter***

Claim1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Per the finding of fact by the Board of Appeals, the prior art teaches paging and measurement during the same time slot or period as indicated in the rejection. However, the scope of the presently allowed claims covers only the case wherein paging information is received and measurement is made at **exactly the same point in time**. Not during a same time slot or short interval, but both occur **exactly simultaneously**. Per the boards decision, when incorporating each and every limitation of the claims, none of the prior art teaches the features as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LEWIS WEST whose telephone number is (571)272-7859. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew D. Anderson can be reached on 571-272-4177. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
